General Information

The COASIT Language Assistants Program places young university graduates from Italy to work as language assistants in Victorian schools.

Language assistants support qualified language teachers to provide authentic language and cultural experiences for students. Language assistants can use traditional and contemporary language and culture to engage students in face-to-face and online language learning. This includes, but is not limited to, team-teaching, providing small group or individual student language support, offering advice on linguistic and cultural matters and participating in school activities relating to their language and culture.

Language assistants can also be asked by COASIT to participate in resource development, student language immersion camps and teacher professional learning.

Program objectives

The COASIT Italian Language Assistants Program aims to:

- enrich Victorian school Italian programs through the provision of native-speaking language assistants;
- provide Victorian teachers and students with opportunities to increase their knowledge and understanding of Italy, its language and culture;
- promote language learning and intercultural understanding in Victorian communities; and
- foster relationships between Victoria and Italy through ongoing linguistic and cultural exchange.

Selection criteria

Applications from individual schools for the 2018 Italian Language Assistants Program will be assessed according to the following criteria:

1. The school provides an Italian language program which is delivered **by a qualified Italian language teacher(s)** for a minimum of 20 hours per week (if the school does not teach the language for 20 hours per week then the school needs to submit a joint application with **one** other school).
2. The school demonstrates a strong commitment to the teaching of the language (e.g. evidence that Italian is identified as a priority in the school's Strategic Plan; goals/targets are included in the Annual Implementation Plan; a demonstrated increase in students enrolled in the language program; **or other school initiatives to promote and improve Italian language education**).
3. The school demonstrates how the quality of its languages program would be improved through the support of a native-speaking assistant.
4. The school demonstrates a commitment to providing professional support and

development opportunities for the language assistant, including the appointment of a mentor. This could also include participation in language conferences, regional professional learning activities and network meetings.

5. The school **ensures that the school community provides free and suitable accommodation for the first 4 weeks of the program and supports the Assistant in finding ongoing accommodation.**
6. The school outlines a sound strategy for supporting the wellbeing of the language assistant during the placement, including an induction to the school upon arrival.

COASIT receives more applications from schools than there are language assistants available. Therefore the information sought in this application form will assist in the determination of a priority ranking of applications for language assistants and will enable the assessment panel to make an informed decision about the allocation of language assistants for 2018.
